## SCIENCE

### Instructions

Each student will create a science model based on the project assigned to their roll number group.

Use simple, low-cost, eco-friendly materials easily available at home.

Submit a short report explaining:

- ❖ How your model works
- ❖ Materials used
- ❖ The science behind it

Be innovative, neat, and creative! Use recycled materials, drawings, and labels.

## Model Assignments by Roll Number

Roll Numbers	Project Title	Details	Tips
1-10	Best Out of Waste: Creative Reuse	Use waste materials (bottles, newspapers, boxes) to create useful or decorative items.	Show photos of the process and explain the usefulness and creativity in short notes.
11-20	My Healthy Plate: A Mindful Eating Chart	Create a colourful food chart on a paper plate or a cardboard circle, dividing it into sections: fruits, vegetables, grains, protein, and dairy.	Stick or draw healthy food items in each section. Write short notes on why each group is important and how mindful eating helps you stay fit and strong.
21-30	Chart/Poster on Environmental Science	Create a colorful chart or poster on topics like pollution, conservation, or climate change.	Use drawings, slogans, and real-life pictures with a short write-up.
31-40	Water Cycle	Create a 3D model or chart showing the water cycle (evaporation, condensation, precipitation, collection).	Use recycled and colorful materials, label all parts clearly, add arrows to show direction, and keep your model neat and easy to explain. Add photos/drawings.

### Submission Details
